Overall Recommendation:

☒ **Recommended as Basal**

Overall Strengths, Weaknesses, Comments:

The referenced page numbers for corresponding standards are not comprehensive and do not correlate to actual location of the information. This basal is not real strong on vocabulary usage. The sequencing of conceptual material in the basal is random. All of the information is in the basal, but the teacher will need to seek out the location. The concept of Work will have to be supplemented since it is not covered in this basal. This basal does not make any attempt at correlating the laws of motion to planetary movement, or at showing the relationship between the earth and the Milky Way galaxy. The earth - sun - moon system relationships are explored in good detail. The depth of understanding for SC-7-2.3.1 and SC-7-2.3.2 are non-existent in this basal. The concept of learned behavior (SC-7-3.4.1) is not covered in this basal. SC-7-3.4.1 and SC-7-3.4.2 are generally well addressed in this basal. The expected understandings for SC-7-3.5.1 are not covered in this basal. The understanding of internal heat from the earth's core (SC-7-4.6.1) is not covered in this basal. The Kinetic Molecular Theory is not covered in this basal (SC-7-4.6.2). Wave Theory is not addressed in this basal (SC-7-4.6.3).
